Joke - ELEMENTARY, MY DEAR WATSON Sherlock Holmes and Dr. Watson go on a camping trip. After a good dinner and a bottle of wine, they retire to the tent for the night, and go to sleep. Some hours later, Holmes wakes up and nudges his faithful friend. "Watson, look up at the sky and tell me what you see." "I see millions and millions of stars, Holmes" replies Watson. "And what do you deduce from that?" Watson ponders for a minute. "Well . . . Astronomically, it tells me that there are millions of galaxies and potentially billions of planets. Astrologically, I observe that Saturn is in Leo. Meteorologically, I suspect that we will have a beautiful day tomorrow. And what does it tell you, Holmes?" "Watson, you idiot!" he says. "It tells me someone has stolen our tent!"
